Consider Your Snow Removal Needs Solved

From Shopping Centres to single locations

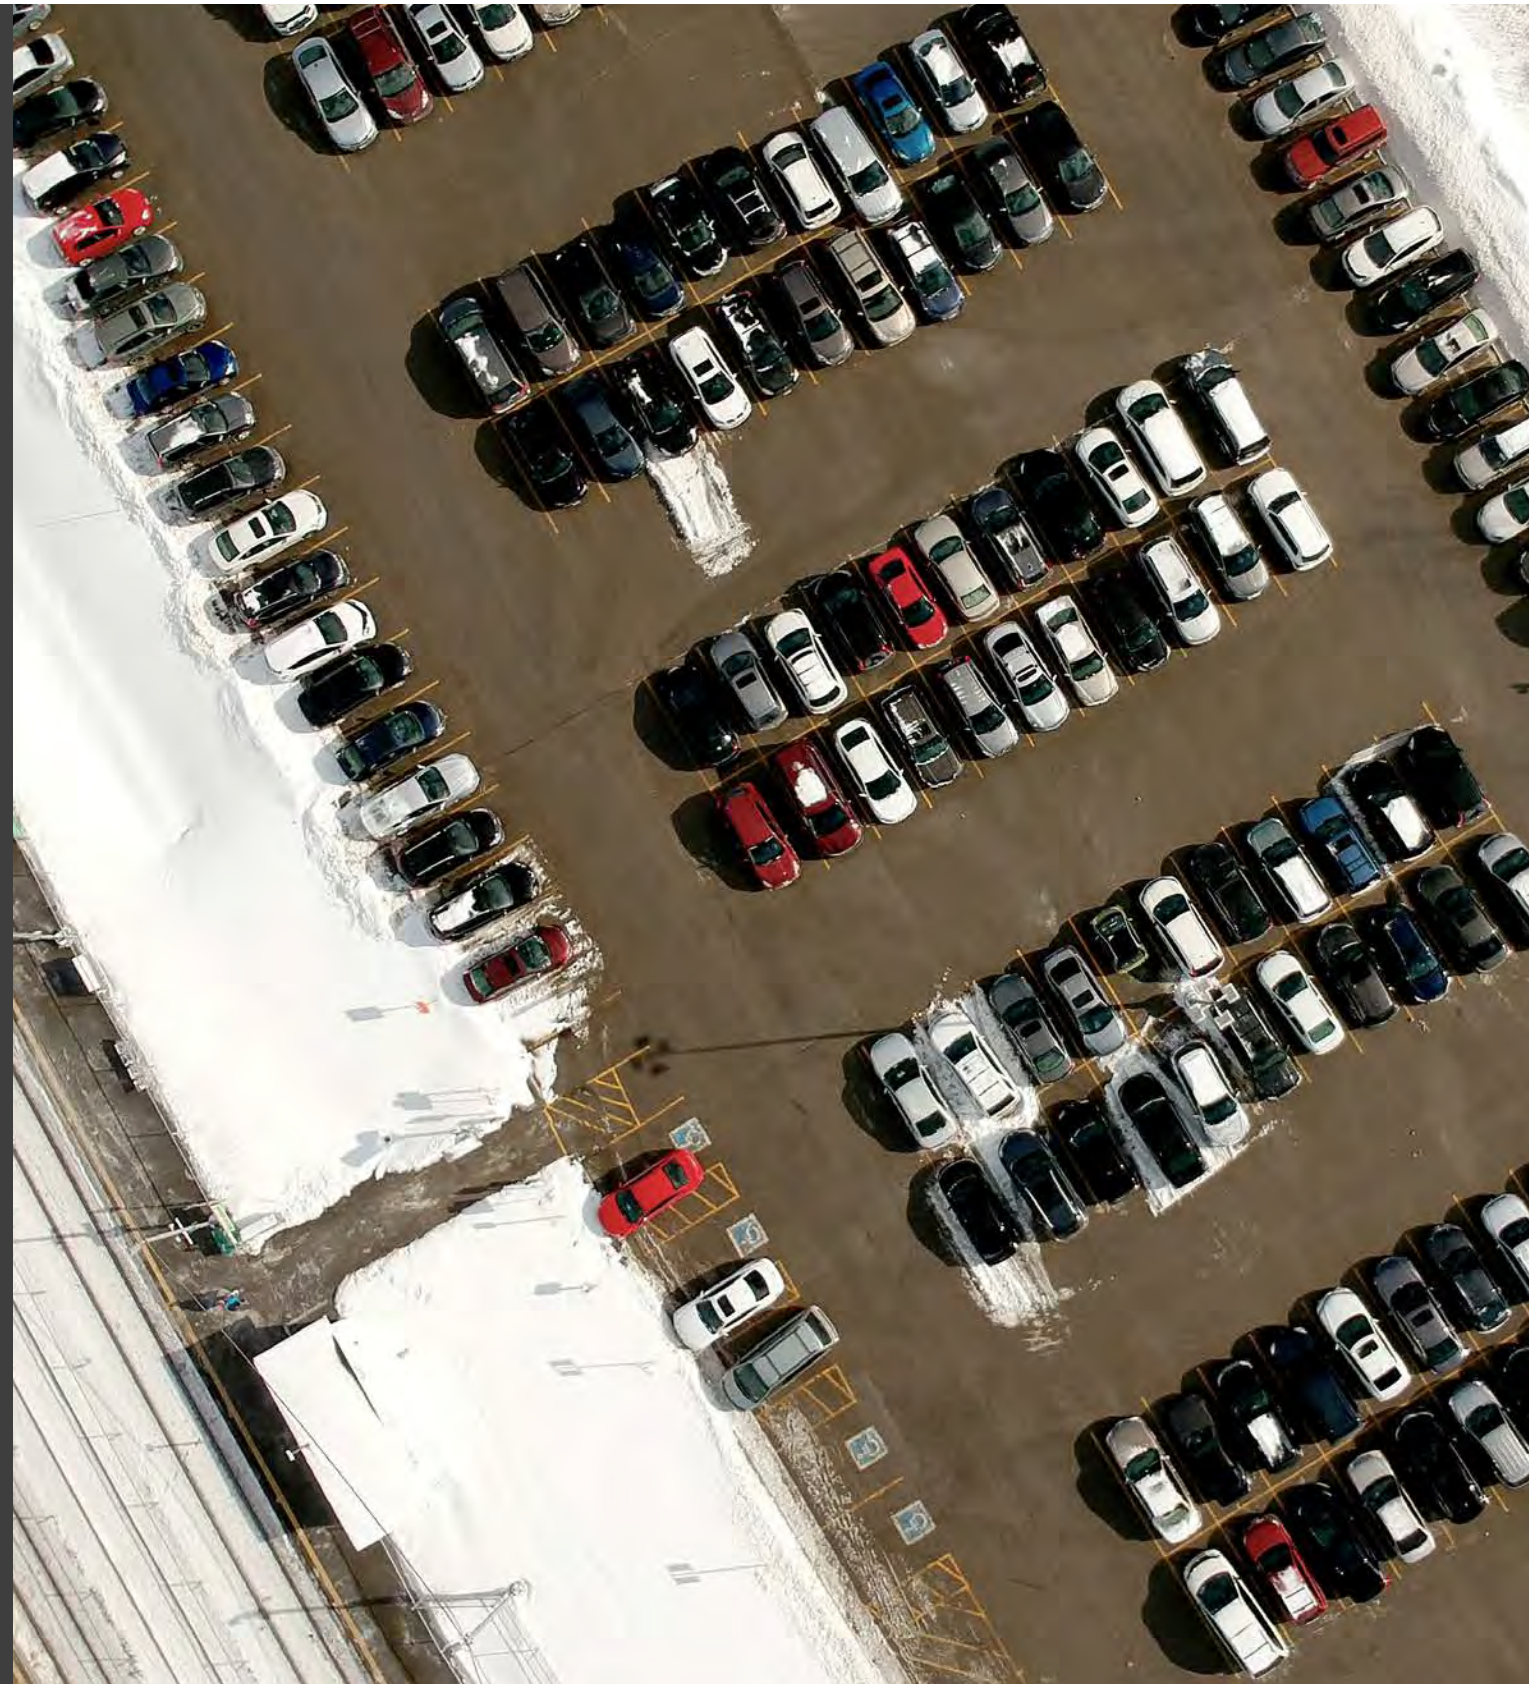

We have you covered this winter season.

We have the capacity to take on any size project. With a fleet of front-end loaders, skid steers, parking lot sanders, snow hauling trucks, plows, sidewalk sweepers, snowblowers and over one hundred employees. We are ready to tackle whatever winter throws at you.

Over 100 Snow & Ice Professionals

Self performing fleet and equipment for cost-effective jobs

We provide rigorous snow logs, which help to protect our clients from liability.

Focused on You

24 Hour Service Line

Our on-call team will be able to service your snow removal needs at any time of the day or night!

GEO-Fence

Property managers automatically know when, how often and for how long we were at the site.

Activity Reports

Monthly Activity Reports for all services provided at any given time of the month.

Our Guarantee

A smart, scalable, and proactive response plan that utilizes your snow and ice removal budget wisely while keeping your property safe well before any storm hits.

1. Reliable and Safe
2. Peace of Mind
3. Fast Storm Response Times
4. Save Costs by providing a Customized Snow & Ice Management Plan.

Our Services

We hope you will consider Park Landscaping as a potential snow removal partner. When the unexpected happens, we proactively reach out to you and any on-site contacts. We make sure the exterior of your properties remain safe, accessible, and represent your brand.

We have state of the art Snow Melting machines. Saving your parking lot from wear and tear of heavy truck traffic. Our Snow Melting Equipment presents an economically viable solution to the expensive process of physically hauling and relocation snow, for facilities managers, municipalities and airport operations alike.

Park Landscaping is able to use a GPS software called "Fleet Complete" to set up a geo-fence around our client's buildings. Once our snow removal crews enter a property, an alert can be sent automatically via email to the property manager, for example, "Park landscaping has arrived to perform snow services" and another alert once we leave the property.

Easy access

Sidewalks

Eliminate interruptions with safe, round-the-clock sidewalk clearing services. And avoid the dangers of hidden ice.

1. Clearing
2. Sanding
3. Ice Removal
4. Site Checks
